

RAZOR RIBBON SENSOR CLIP

Made in the USA

Razor Ribbon is proud to introduce its latest security innovation, the Sensor Clip. A new way to connect hanging sensor wire inside barbed tape without Chaffing or setting off false alarms. The simplicity of the new product design allows for a quick and easy installation.

Why Use the Razor Ribbon Sensor Clip

- **Cost-Effective** - Only uses (1) fastener and a self-tapping screw, no special tool required. Just a common commercial screw driver with magnetic tips.
- **Easy-to-Install** - The simple design allows the installer to drape the clip over the Razor Ribbon, freeing up a hand for easier installation.
- **Secure Connection** - The holes in the clip fit precisely with the holes in the sensor block securing the connection and eliminating false alarms
- **Chain Link Fence Use** - No longer requires barbed connectors to secure the clip to the fence.
- **Flexible** - Works with any Razor Ribbon product
- **Made in the USA** - We proudly manufacture our Sensor Clips in America

Part Number	Description	Box Qty.
